A SPECTACULAR CESSNA 421C

This exceptional aircraft is the perfect solution for a small or mid-size business, a professional services firm, or an individual like you. Our shared ownership programs make on-demand, secure, and private air transportation a reality. Perfect for trips of approximately 1000 miles or less, this aircraft can carry up to 6 passengers in a custom designed pressurized cabin, fully equipped with a refreshment center and an entertainment system.

You and your passengers will fly above the weather and leave on your schedule from an airport most convenient for you and arrive where you need to be, not at a busy airport terminal that could be miles from your intended destination. Your aircraft will be ready for your return home in time for dinner with the family or on to your next destination, all on your schedule.

Special features of this airplane:

- Well suited for small and conveniently located airports close to where you need to be, plus the major air hubs anywhere
- State of the art navigation systems for safe operation in all weather conditions
- Maintained and operated at standards that exceed FAA requirements
- Pressurized interior with very comfortable seating for 6 passengers
- Fully stocked refreshment center featuring your choice of snacks and beverages
- Private lavatory

The spacious, custom designed cabin features a private lavatory.

At speeds over 300mph, your aircraft can travel from New York to Chicago in less time than you might spend at an airport terminal being processed for your crowded commercial flight!

Productivity and an increased quality of life are easily reached with an airplane of this caliber: safe and secure private on-demand transportation that operates on *your* schedule, where *you* want to go, when *you* want to go, any day, any time, any where with any one *you* choose!

The custom designed cabin features a fully stocked refreshment center stocked with your choice of snacks and beverages chosen by you to be on board each time you travel in your airplane.

If you are planning to spend a few days away from home, your flight crew will take care of stowing your luggage and it will be ready as you exit the plane upon arrival!. No searching for adequate space, waiting at the baggage claim. No lost bags, ever!

We will even arrange any ground arrangements that you require.

The very comfortable and quiet cabin features a stereo system with Bose headphones, DVD flat screen TV's at each seat, and a moving map display that monitors the progress and location of your flight.

The seating is in club configuration with tables that fold out to offer plenty of room for work and discussion. Or just recline your seat, relax with music or a movie of your choice, and have a drink while enjoying the view!

Participation in this program includes:

On-demand air service with a professional and experienced flight crew, all maintenance and upkeep of the aircraft, insurance, hangar and base operations, dispatch and scheduling, fuel, and all cabin amenities. Our office will be happy to arrange ground transportation and other arrangements you may request. This is a service offered as part of your membership and any direct costs are billed monthly.

A 1/4 participation in this aircraft requires a one time fee of \$85,000 partially refundable upon the time of program exit, a monthly management retainer of \$1,400, and a per hour cost of \$435 subject to a fuel cost fluctuation surcharge.

A 1/4 share allocates a minimum 10 hours per month and maximum 40 hours per month with 2 unused hours permitted to rollover to the next succeeding month. Unused hours beyond the 2 rollover hours are forfeited. Up to 2 hours per month that exceed the allocated 40 hours are deducted from the next succeeding month.

Flexible plans are available that allow for additional hours of use. For more information and a cost analysis designed for you and your company, please contact us.
